Dear FCC:

I bought this phone for a young teenager to keep with him for emergencies. I bought it because I can control the number of minutes he uses and I have the peace-of-mind that he can call me if he needs to. I have 2 other children, in college who use cellphones because dorm phones are only for "on campus" calls. I have spent alot of money on the cell phone bills because they need them to call doctors, etc. and use up their minutes too quickly. Please consider leaving these "controlled" cellphones the way they are.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
